Printable Ring Sizer

Available sizes US 3–13

THE RING

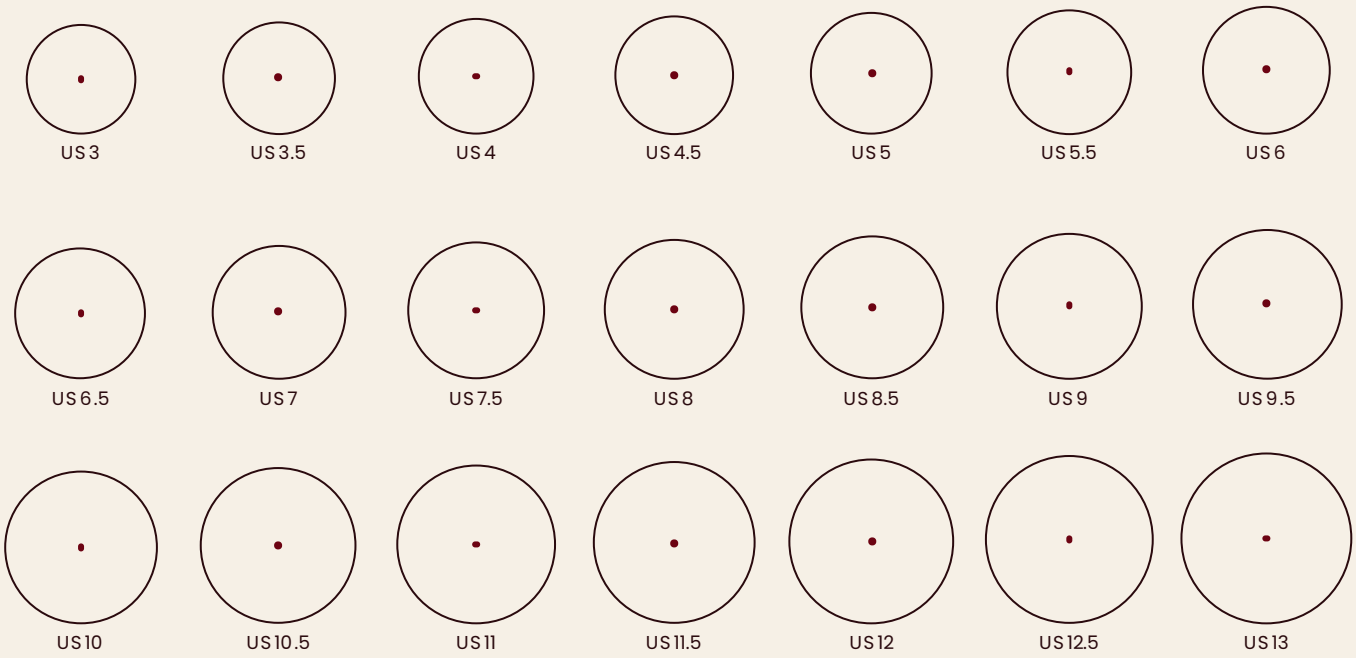

Print on A4 at 100% / "Actual size". Do not use "Fit to page".

Calibration: this line must measure exactly 100 mm with a ruler. If not, do not use this sheet.

Measured between the centres of the two end marks.

Method 1 — Existing ring

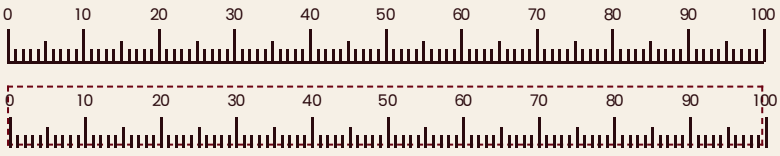

Place a ring that fits you on the circles. The matching size is the circle whose inner edge meets the ring's inner edge.

Method 2 — Paper strip

Cut the strip, wrap it around the base of your finger, mark where it overlaps and read the length in mm on the ruler. Match it to the circumference in the table.
